Complete Reappraisal of
All State School Property
Is Concluded

By Associated Press Staff Writer.
OKLAHOMA CITY, Dec. 1.—An educational campaign by mail to instruct the owners and managers of the state with regard to the law of Oklahoma governing the payment of school land taxes, was started today by Claude Connally, state labor commissioner. Mr. Connally said he has received numerous complaints of children between 3 and 9 years old appearing on the stage. After a thorough effort to advise the owners of the law, Connally said representatives of the state labor department will follow up all reported violations of the law. He said, however, that he believes that most of the violations are due to lack of familiarity with the statute and will not be continued when the theater managers are acquainted with the law. Connally also said that he had mailed copies of the state school land law to all industrial centers and institutions employing large numbers of persons in the state in an effort to make employees familiar with the law.

Terms of purchase of state school land provide that buyers shall pay 5 per cent of the price in cash and the balance in 48 equal annual payments. The state has approximately 2,000,000 acres of public land for sale originally, beginning in 1910, and about 80 per cent of it has been sold, Shaw said. The larger number of the sales were made in 1915. Delinquent purchasers number about 100, some of them being nine years behind in their payments. Notice was sent out in August that payment of delinquent purchase money would be required at once, and a large number of purchasers paid as a result. Land the purchasers of which are delinquent includes farming land and town lots at Hobart, Lawton, Muskogee and Luther. Complete reappraisals of all state leased land have been finished and approved by the commissioners, Shaw said. Existing leases on the land will expire December 31, and new leases must be made by that time. The land consists of approximately 400,000 acres, upon which more than \$200,000 in rental payment was collected last year. New values of the leased tracts according to the reappraisal, will be 10 per cent to 20 per cent greater than before, Shaw said. Appraisal is made every five years, and annual rental of 4 per cent of the appraised value is charged. There are approximately 2,000 leases, most of whom have preference right leases that entitle them to renew their leases for another five-year period. Holders of non-preference right leases may renew for only one year at a time. Approximately 80 per cent of the holders of preference right leases have not agreed to accept the new valuation and may attack it by court action. Land newly appraised and subject to renewal of lease does not include the 200,000 acres of grazing land in Cimarron county upon which the lease was renewed last summer.

Helps Make Long Trip.
CONWAY, Ark.—From West Hartlepool, county of Durham, England, to Conway, is a long trip for a bride who has never seen the bridegroom. But Miss Mary Percival made the journey, met the bridegroom here and her marriage to Edgar A. Park, of Conway, was solemnized. Mr. and Mrs. Park left for a short wedding tour after which they will be at home in Conway.

TANLAC SALES REACH TREMENDOUS TOTAL

408,720 Bottles or 41 Carloads of Celebrated Medicine Sold and Distributed in This Territory Alone.

ALL RECORDS SMASHED
SAY BIG DRUG FIRMS

Sales for Present Year Show Increase of Almost One Hundred Per Cent Over Corresponding Period of Last Year.

Any statement has just been made by the Alexander Drug Company of Oklahoma City that they have sold and distributed approximately 408,720 bottles of Tanlac since its introduction in this territory about four years ago, breaks all records for the sale of proprietary medicines for the state of Oklahoma.

Although placed on sale something over five years ago, the demand for this celebrated medicine has increased at a most phenomenal rate, and announcement has just been made by the manufacturers that the total sales will reach approximately 2,000,000 bottles by the end of the present year. To say that Tanlac now has the largest sale of any medicine of its kind in the world does not begin to tell the story, for no other preparation has ever even approached the marvelous record that has been made by Tanlac, and it is now conservatively estimated that the sales by the end of the coming year will reach the phenomenal total of 22,000,000 bottles.

Tanlac sales last year amounted to 4,073,945 bottles, establishing a new world record for the sale of proprietary medicines.

To Instruct Showmen Regarding State Law Governing Child Acts

BUTLER'S IN A HOLE

Chief Budget Clerk Unable to Get
State Board to Agree on Account
of Wants.
Staff Correspondent.
OKLAHOMA CITY, Dec. 1.—J. L. Butler, chief budget clerk, is having difficulty in getting a budget report from the state board of affairs. His requests to have the blanks filled out have so far only caused the board to reply in lengthy letters, stating that they must have some increase in appropriations, but the estimates do not carry what the increases are for nor why they should be allowed. The budget clerk operates directly under the supervision of the governor and can only submit such reports as have been made to him by the various heads of departments. Refusal to fill the blanks by the board of affairs is rather peculiar, in that the board is also appointed by the governor, and the budget law is distinctly of Governor Robertson's own making and was enacted under his direct supervision.

With only a month intervening between now and the convening of the eighth legislature, many departments have been unable to properly fill out their budget requests, and the governor is about, with nothing done toward final report to the legislature. The budget will have to be submitted in book form and it will require a considerable time to print it, therefore the chief budget official is occupying a nerve-breaking position at the present time.
